

**The IuT Group**

The IuT Group is a group of companies operating world-wide, engaged in designing, building and operating waste management facilities.

Our company has an immediate vacancy for an:

## **Operations Manager (COO)**

**for Waste Management Projects (sorting plants, anaerobic digestion and composting plants, landfill mining projects)**

You will be leading a team of project operations managers. Your responsibilities will include the technical and commercial monitoring of current projects, the ongoing optimisation of operations, cost reduction programs, and the technological improvement of sites. You will have to coordinate with technology specialists and universities to monitor and optimise process parameters.

Your responsibility for overseeing local operations managers will involve regular visits to sites. We expect willingness to travel extensively to sites in Austria, the Czech Republic, UAE, and Singapore. You will be reporting directly to the Group's CEO.

We offer a very interesting position, an adequate salary, high flexibility and responsibility. You should have an education in technology (university or college graduate) whilst also having a good understanding of commercial parameters.

**Please mail your CV and references to Mr. Reinhard Goeschl,  
CEO of the IuTGroup  
at: [r.goeschl@theiutgroup.com](mailto:r.goeschl@theiutgroup.com)**

All applications will be treated confidentially!
